IN offering this new Edition of the GREENOCK REGISTER and DIRECTORY, the Publisher avails himself of the opportunity of expressing his grateful acknowledgments to the public generally, for the obliging assistance he has received in procuring the various details.

To the MAGISTRATES, the CLERGY, MERCHANTS, AGENTS and OFFICE-BEARERS of PUBLIC INSTITUTIONS, he offers his respectful thanks ; to SHIP-OWNERS, he is deeply indebted for the valuable information connected with the Shipping of the port.

The REGISTER and DIRECTORY now offered, it is hoped, will be found to exhibit as few errors as any Work of a similar kind. The Publisher having availed himself of every means of information in his power, and spared no labour to procure with the greatest possible accuracy, the numerous and minute details necessary, for forming the whole into a brief, yet compendious digest of the Shipping and Commercial Interests of the Town of Greenock.

PROPERTY AND INCOME TAX.

The intent of this Act is to charge an annual duty of 7d. in the pound on all profits arising from property, professions, trades, offices, annuities, pensions, and other sources of income in Great Britain, excepting where the income is less than £150; but it can hardly be said that any person who realises income from *property* is exempt, however small the amount may be; for, notwithstanding the Act ultimately exempts all those whose total income is less than £150, yet it in the first instance imposes the duty, irrespective of the amount of such income, if derived in rents, or profits from land; these, be they ever so small, are to be paid by the occupier for the owner: but if the total income of such owner from this and other sources does not amount to £150, he will be able to claim the repayment of the tax paid, on following the directions given in Section 164. So also will the tax in the first instance have to be deducted from all *annuities, dividends*, and other sources of income payable through other parties, unless the half-yearly payment be less than £2 10s. (§ 164, 165.) Incomes, however, derived from *trade, professions*, or other sources entirely in their own hands, will avoid payment in the first instance, and if the total amount be less than

£150 per annum, will obtain exemption on following the rules in Section 163-5.

THE ACT IS DIVIDED INTO SCHEDULES.

Under Schedule (A.), is charged yearly, "in respect of the property thereof," (as distinguished from "occupation,") 7d. for every pound of annual value of heritable property, (§ 60). Lands to be valued at the rack rent, or full annual value. Quarries, iron works, docks, canals, tolls, railways, &c. to be valued on the profits of the *preceding year*; mines on the average of five previous years. Lands, &c. to be charged on the tenant, and deducted by him from his rent, excepting houses under £10 annual value, and lands, &c., let for less than one year, which are to be assessed upon the landlord. Where lands are subject to *annuities, rent charges*, or other yearly payment, the owner or landlord may deduct the duty out of such payment. Mortgagees or creditors in possession to be charged as occupiers; but when not in actual occupation, are liable to such deduction as any other landlord.

Schedule (B.) (§ 63,) gives an annual charge *in respect of occupation* of lands as farms, in *Scotland*, of 2½d. for every pound yearly value; but income from occupation of lands is to be deemed only equal to nearly one-third of the full yearly rent, so the occupier will claim exemption under £150, if his rent does not amount to £420, and he be not otherwise brought under the operation of the Tax.

Schedule (C.) (§ 88,) imposes a duty of 7d. in the pound upon annuities and dividends payable out of any public revenue, if the sum exceed £2 10s. as previously explained. These duties are to be paid by persons and corporations intrusted with payment of annuities, dividends, &c., and apply to every annuity payable in *Great Britain* out of any public revenue in *Great Britain*, or any foreign public revenue. All annuities payable *in Ireland*, out of the public revenues, to or for behoof of any individual, *not resident* in *Ireland*, will also be charged. (§ 91.)

Schedule (D.) (§ 100,) charges a tax of 7d. in the pound upon the annual profits of professions, trades, manufactures, and adventures exercised in *Great Britain*, and not included in the foregoing or subsequent Schedules; and also upon persons resident in *Great Britain* deriving incomes from other places. The annual profits or gains are to be computed on the full amount of the balance of the profits or gains on a just average of three years, ending on the usual day of making up accounts, or on the 5th April; or if the trade, &c., commenced within the period of three years, or within the year of assessment, then the computation is to be made on *one year or less*. No deductions to be made for repairs of premises, or repairs or alterations of implements, &c., beyond the average expenditure of three years; nor on account of any capital withdrawn; nor for any capital added or employed in improvement of premises; nor on account of any interest which might have been realised if laid out at interest; nor for any debts, except such as are proved to be bad; nor for any average loss beyond the actual amount; nor for any sum recoverable under an insurance or contract of indemnity. No deduction is allowed to be made on account of any annual interest, annuity, or other annual payment out of profits or gains, but the duty paid on such interest, &c., is to be allowed by the individual to whom it is payable, on a certificate granted by the Commissioners. Neither is any deduction to be made for any disbursements except

for the purposes of such trade, &c. The duty on the profits of each trade, &c., is to be calculated exclusive of the profits from lands or tenements occupied for such purpose. Individuals being engaged in two or more trades, &c., may set the loss sustained in either against the profits acquired in any other. The charge on *Professions* and *Employments* is to apply to every employment, whether annual or for a longer or shorter period, and to all profits or earnings of whatever value; the duty to be charged is to be calculated at the full amount of the balance of the profits, gains, and emoluments of such professions, employments, or vocations within the present year, ending on the usual day of making up accounts, or on the 5th of April; or if commenced within such preceding year, the computation to be made on a shorter period. The rules relative to trades, are also, where applicable, to apply to professions, &c.; and if the actual income fall short of the amount assessed, the Commissioners of Stamps and Taxes are empowered to order the repayment of duties on the sum allowed.

INTEREST derived from *Securities in Ireland, or the Colonies, or Foreign Securities*, not assessed in Schedule (C.), are to be charged on the full amount of the sum (as near as they can be computed) which are received in Great Britain in the current year, without any deduction.

INCOME arising from *Possessions in Ireland, the Colonies, and Foreign Possessions*, are to be charged on the full amount of the actual sums yearly received in Great Britain, either for remittances or from property imported, or from money or value received in Great Britain on an average of the three previous years.

INTEREST on money borrowed is, according to the rules under Schedule (D.), Section 100, to be charged and paid by parties "receiving or entitled to the same," but by the *proviso* in the 102d Section, all annuities, annual interest, and other yearly payments payable out of profits "brought into charge by virtue of this Act," are excepted from the general rule, and the duties are made chargeable in the first instance upon the persons entitled to the profits out of which such interest or other annual sums are payable; but the persons so charged are authorized to deduct from the interest or other annual sums payable by them, the amount of the duties so paid; and the general application of Section 102 will probably be found to be in cases of interest on money borrowed for the purposes of trade. By the 4th rule, 1st case, Schedule (D.), it is expressly stated that no reduction shall be made for such interest: it is therefore necessary for the profits to be calculated and assessed as if wholly derived from the capital of the trader, and then he will, under the 102d Section, be able to protect himself from the overcharge to which he would otherwise be subjected; and it will equally apply to an annuity of a retired partner, or the widow or family of a deceased partner. To ascertain whether any particular payments are included in this enactment, the question can be decided under the 104th Section.

The duties may be compounded for three years, the period for the operation of this Act, which relieves the necessity of annual declaration or return; for which see Sections 143, 144.

Schedule (E.) imposes a duty of 7d. in the pound upon every public office or employment of profit, and upon all pensions and stipends paid by her Majesty, or out of the public revenue, except annuities named in Schedule (C.), (see Section 146.) The duties on perquisites, fees, &c. are to be assessed on an average of three years or of one year, as in previous Schedules, and in case of non-payment the

amount may be stopped at the office at which the salary, &c., may be payable.

Exemptions of persons whose income is less than £150. Any person charged either by assessment or by deduction from any payment to which he may be entitled, can, on proving to the Commissioners for General Purposes that the total annual amount of his income is less than £150, be repaid the amount of all deductions or payments made on account thereof. *See Sections 164-5.*

Private Assessment by Special Commissioners is remitted by Section 131, and to effect this they are to deliver such requests with a statement of profits, which may be *under seal* (*see Section 110*), to the assessor, who must transmit it to the inspector or surveyor for inspection, and if approved, the Commissioners will direct the party so assembled to make payment to an appointed officer. These provisions, as well as those contained in Section 137, seem to be intended to obviate a grievance to which persons engaged in trade or professions would otherwise be liable, and was so much objected to under the former Income Tax—the exposure to collectors of the amount of profits returned, and its possible disclosure to neighbours or rivals.

Parish Register of Births and Marriages, from January, 1838, to January, 1845.

YEAR.	EAST PARISH.		MIDDLE PARISH.		WEST PARISH.	
	Births.	Marriages.	Births.	Marriages.	Births.	Marriages.
1838	100	58	68	98	170	196
1839	84	57	69	107	168	180
1840	59	77	43	100	122	181
1841	68	79	70	120	172	220
1842	53	60	42	64	161	150
1843	52	70	47	57	148	140
1844	50	49	33	60	175	224

The above shews, not the actual number of Births, but *only* the number of Births that have been *registered*. Parents are very blameworthy in not registering the births of their children with the Session Clerk of the parish in which they were born; by such negligence, the parents and children are often subjected to much serious inconvenience, and are sometimes deprived of their patrimonial and legitimate rights. Not less censurable are parties who enter their Proclamation for Marriage in a different parish from the one in which they actually reside, and who also overlook the necessity of registering their marriages. Application is often made to the Session Clerks of the different parishes, for Extracts of Marriages, when it is frequently found, that parties, although residing in that parish, have entered their Proclamation in a different parish, and of course no legally certified extract can be obtained. After obtaining the "Extract of Proclamation," few return to have the date of marriage recorded in the Register, so that the numbers under the head "Marriages" are, in fact, *only* the number that "have been proclaimed in order to marriage." Clergymen should notice that the "Extracts" granted are from the parish in which the parties reside, as many deceptions are being practised; and those having influence, should

urge the necessity of registration with the Session Clerks. It is done by them *gratuitously*. The Boundaries of the three different parishes are minutely described in this Directory, at pages 46, 49, and 51.

SHIP LETTERS.

Letters for Foreign Parts to which there are no regular Packets, are forwarded through the Ship Letter Office, London, by every outward-bound vessel; and letters can be forwarded to the Colonies and Foreign Parts, through the Post-Office, by any Ship sailing from any particular Port. But, in such cases, the letters must be specially addressed, "By Private Ship;" and, if wanted to go by any particular Ship, or from any particular Port, they must also be specified, as, "Hamburg Steamer, *via* Hull."

The single uniform rate on Letters between the United Kingdom and places beyond Sea, when conveyed by Private Ships, is 8d., in whatever part of the United Kingdom the Letters may be posted or delivered. This is the rate now taken on Letters between the United Kingdom and the East Indies, &c. &c., when conveyed by Private Ships, the former distinction between these and other descriptions of Ship Letters having been abolished.

The rates of Postage on "Ship" as on other Letters are taken by weight :—

Under half an ounce,	1	Rate, or 0s. 8d.
Under an ounce,	2	Rates, or 1s. 4d.
Under two ounces,	4	" 2s. 8d.
Under three ounces,	6	" 4s. 0d.

And so on, adding two rates for every additional ounce.

PERSONS EXEMPT FROM SHIP LETTER POSTAGE.

The Owners, Charterers, or Consignees, (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of Goods on board vessels inward-bound, are entitled to receive their Letters free from Sea Postage, to the extent collectively of Six ounces in weight, by any One Vessel to any One such Person. In the case of Vessels coming from Ceylon, the Mauritius, the East Indies, or the Cape of Good Hope, for an Owner, Charterer, or Consignee of such Vessel, the letters may be collectively Twenty ounces in weight. The Owner, Charterer, or Consignee must be described as such on the address and superscription; and in the case of Owners, Shippers, or Consignees of goods it must also appear by the Ship's Manifest, that they have Goods on board the Vessel. Such persons are entitled to have their Letters which come within the above Conditions before the Master of the Vessel delivers the other Letters in his charge to the Post-office.

* * Every Person who shall, with intent to evade any Duty of Postage, falsely superscribe a Letter as being the Owner, or the Charterer, or the Consignee of a Vessel conveying the same, or as the Owner, or the Shipper, or the Consignee of Goods shipped in such Vessel, shall for every such offence forfeit Ten Pounds.

RATES OF POSTAGE

TO THE COLONIES AND ALL FOREIGN PARTS, WITH ROUTES OF MAILS
AND DAYS OF DESPATCH FROM GREENOCK.

All Letters for abroad, except those addressed to France, or to countries through France, are charged by weight, in the same ratio as Inland Letters, viz. :—

Under half an ounce,	1 Rate.
Above half an ounce, and not exceeding one ounce,	2 Rates.
" one ounce, " two ounces,	4 "
" three ounces " four ounces,	6 "

And so on; increasing two Rates for every additional ounce.

Letters, however, addressed to France, or to countries through France, are liable to British and Foreign Rates, according to the following scale :—

	British Rates.	Foreign Rates.
Under a quarter of an ounce,	1	and 1
" half an ounce,	1	" 2
" three quarters of an ounce,	2	" 3
" one ounce,	2	" 4
" one ounce and a quarter,	4	" 5

The British charge increasing two rates of Postage for every additional ounce, according to the scale of weight, for charging Inland Letters, and the Foreign charge increasing one rate of Postage for every additional quarter of an ounce. It must be observed, however, that the English and French modes of charging by weight are dissimilar; a Letter not being liable to an increased British rate, unless it exceed the half ounce or ounce, while an additional Foreign rate is chargeable if it actually attain the quarter, half, three quarters of an ounce, or ounce, respectively.

As an example. A letter for Sardinia, passing through France—

		Weighing under a $\frac{1}{4}$ oz.		Weighing $\frac{1}{4}$ oz. and not exceeding $\frac{1}{2}$ oz.		Exceeding $\frac{1}{2}$ oz. and under $\frac{3}{4}$ oz.		Weighing $\frac{3}{4}$ oz. and not exceeding 1 oz.		Exceeding 1 oz. and under $1\frac{1}{4}$ oz.	
If paid only through France,	{ British	s.	d.	s.	d.	s.	d.	s.	d.	s.	d.
	{ Foreign	0	5	0	5	0	10	0	10	1	8
		0	5	0	10	1	3	1	8	2	1
Total		0	10	1	3	2	1	2	6	3	9
Or if paid to Des- tination,	{ British	0	5	0	5	0	10	0	10	1	8
	{ Foreign	0	8	1	4	2	0	0	8	3	4
		1	1	1	9	2	10	3	6	5	0
Total		1	1	1	9	2	10	3	6	5	0

* * In all cases it is advisable that letters going abroad should be specially directed by which route they are intended to be sent ; in the following List the route by which they are sent, if not specially addressed, is put first after the name of the place ; but, in cases where the letters are posted unpaid, which require to be paid by that route, or if they are addressed by a route which requires to be paid, they will not be returned to the writers for Postage, but will be despatched, if possible, by other routes unpaid.

GREENOCK GAS WORKS.

REGULATIONS FOR CONSUMERS OF GAS BY METER.

I. **W**HEN GAS is supplied by measure, the charge will be 8s. 4d. per 1000 feet—payable 15th November, 15th January, and 15th May of each year—subject to the undernoted graduating scale of discounts, which will be deducted from the payment in May, viz. :—

When the Gas passing through any one Meter per annum is less than

	£2.....	7½ per cent.
£2, and is less than 10.....	10	"
10, " " 20.....	12½	"
20, " " 60.....	15	"
60, " " 100.....	20	"
100, " " 150.....	25	"
150, " " 200.....	30	"
200, " " 250.....	35	"
250, and upwards	40	"

No discount to be allowed unless the first payment be made on or before the 15th November, the second on or before the 15th January, and the third on or before the 15th May, OR AT THE FIRST CALL THEREAFTER; and if the accounts are not paid within a reasonable time after all of the aforementioned dates the Committee may order the supply to be turned off until payment be made. The Committee likewise reserve power to demand security, or to exact payment in advance, whenever they think necessary.

II.—A service-pipe will be laid at the expense of the Works, from the main-pipe to inside of the house; and in cases where houses are divided into floors, the service-pipe will be continued up the staircase, if approved of by the Committee.

ADVERTISEMENTS.

III.—All interior fittings of every description, with the exception of the stair pipes aforementioned, to be done at the expense of the consumer, by gas pipe fitters alone, who have been duly authorised as such by the Committee of Management. The gas pipe fitters, on no account, to proceed to fit up meters, or to make any alteration in their situations, without a special order from the Manager. The fittings to be approved of before the gas is let on, and subject at any after period to the inspection of the Manager or any other person appointed by him for that purpose, who is to have access at all reasonable hours.

IV.—No gas meters will be allowed to be used but such as are furnished by the Works. *These are supplied gratis*, but the expense of fitting up is borne by the consumer.

V.—The Manager, or any other person appointed by him, to have free access at all reasonable hours, to ascertain the quantity of gas consumed; to supply the meter with water; to examine the same, and, if necessary, remove and cleanse it at the expense of the owner. No person will be allowed, on any account, to remove or disconnect the meter, but the servants in the employment of the Works.

VI.—If at any time it be ascertained that the meter has not registered the quantity of gas consumed, or from any other cause it may be found necessary to supply gas temporarily without meter, the Manager to have the power to charge for the gas consumed during the time it was supplied, and not correctly registered, in the same proportion as the consumption was either before or after that time.

VII.—The Committee of Management will not hold themselves responsible to consumers for loss arising from a suspension of the supply of gas, whether such suspension is occasioned by accident to the Works, or from any other unavoidable cause.

VIII.—The Committee reserve power, in case of fraud by consumers, to discontinue the supply of gas, without any previous intimation being given.

N.B.—During the continuance of severe frost, all meters placed in exposed situations should be wrapt round with a piece of flannel or woollen cloth, to prevent the water in the meter from freezing, and in order to insure a supply of gas.

All burners should be cleaned once every month, in order to preserve an equality in the height of flame, and to prevent smoke. Argands, union, and single jets, may be cleaned with a piece of strong bristle, batwings with a piece of watch spring or cut paper. When a burner becomes enlarged through length of use or frequent cleaning, it should be removed and replaced by a new one. If these instructions are not attended to, much smoke and a useless expenditure of gas will be the consequence.

It is particularly requested, that when a smell of gas is felt, immediate notice thereof, verbally or in writing, should be left in the Office at the Works, 12, Crawford Street, Glebe, and every precaution should in the meantime be taken, to prevent any one approaching with a light the situation where the gas is accumulating, especially if the smell arises from a cellar or any other confined place.

Consumers are requested to shut the stopcock *before* the meter, when not using gas.

The distinctive principles of this Society are—

- That the benefits secured are payable during Life.
- That the Members can fix at Entry the precise period at which the benefit is to be payable.
- That the number of Annual Contributions is fixed, and of fixed amount.

The leading objects of this Society are—

- To provide Endowments for Children.
- To secure provision for persons of all ages in after years.
- To accumulate a fund in the event of survivance available at any fixed period.

The leading advantages of this Society are—

- That the whole Profits belong to the Members.
- That the Certificates of Membership form valuable sources of Credit.
- That Members ceasing to pay their Premiums, except from death, are not deprived of their interest in the Fund, but possess a claim at its division, modified according to the Rules of the Society.

LIFE ASSURANCE COMPANIES are rapidly increasing, and adding to their Members persons from all ranks of Society, anxious to secure provisions for their families at death, but public attention has not yet been fully directed to the beneficial results which may be secured during life, on the principle of Survivorship.

ADVERTISEMENTS.

EXAMPLE.

Take the class of this Society's scheme, the funds of which will be divided at the expiry of 15 years, and suppose it is joined by 100 MEMBERS.
all of whom are anxious to secure a benefit payable to them in the event of their being alive at the end of 15 years.

During the first five years, assuming that the average age of the Members is 40, it is calculated that 7 will die,

leaving 93 Survivors.

During the second five years it is calculated that 8 will die,

leaving 85 Survivors.

During the third five years it is calculated that 10 will die,

LEAVING 75 SURVIVORS,

who divide among them the whole fund contributed by all the members, whether living or dead, with accumulated Interest, Profits of Investment, &c.

A fund for provision in the event of survivance at the expiry of any period can be thus effectually secured, and that more favourably than could be done in any other manner.

The Society thus affords all the advantages of a Tontine, with none of its protracted risks and uncertainties, whilst there is the farther advantage to the Members of no selection of lives.

By order of the Directors,

ROBERT BALFOUR, *Actuary.*

THE EXTENSIVE BUSINESS conducted by this Com-
pany places it among the first Institutions in the Kingdom
for the Assurance of Lives.

The Assurances proposed to the Company, during the year 1844
alone, amount to the large sum of HALF A MILLION STER-
LING.

There are various inducements, to parties assuring, to give this
Company a preference, and among these may be mentioned, its
equitable rates, and its characteristic principle of liberality, whether
in the settlement of claims or facilities to assurers. A distinguished
feature is also to be found in the Division of Profits, by which it
confers peculiar advantages upon its Policy holders, allowing them
in the fullest degree the benefit of Survivorship; and by reference
to the Table of Bonus Additions, already declared by the Company,
it will be found that these benefits are very important.

burgh, or from the Agent at Greenock,

Capital Accumulated and Invested upwards of

ONE MILLION FIVE HUNDRED AND SIXTY THOUSAND POUNDS.

Annual Revenue upwards of

TWO HUNDRED AND THIRTY THOUSAND POUNDS.

THE DIRECTORS ARE NOW EMPOWERED TO GRANT ASSURANCES FOR FIXED SUMS, WITHOUT ANY CLAIM ON THE PART OF THOSE IN RIGHT OF THE POLICIES, TO PARTICIPATE IN THE SURPLUS FUND OR PROFIT OF THE SOCIETY.

THERE is no office in Scotland, and very few in England, which can compete with this Society in respect either of the amount of Insurances effected annually and the number of Policies issued, or of the advantages afforded to the Members Insured, whether participating in the Profit Fund or not.

The total amount of sums insured since the Society was established is nearly

SEVEN MILLIONS STERLING.

The amount *insured* during the last seven years has on an average been upwards of

HALF A MILLION ANNUALLY.

The amount *offered for insurance* in one year alone was upwards of SEVEN HUNDRED AND NINETY THOUSAND POUNDS.

The INVESTIGATION into the Affairs of this Society, as provided for by the Articles of Constitution, will take place on the 31st DECEMBER, 1845; and all who effect Insurances on their lives before that day, which closes the current septennial period, will secure a certain greater benefit than will be obtained by those who delay doing so till the commencement of the following year.

The ADDITIONS *payable on Policies becoming claims* this year, are from 12 to 80 per cent. on the *sum assured*. Thus, a £1000 Policy effected in 1815, emerging this year, with the additions, amounts to £1809 8s. 7d.

Forms of Proposals, and every necessary information may be obtained at the

SCOTTISH AMICABLE LIFE ASSURANCE SOCIETY,

141, BUCHANAN STREET, GLASGOW.

THIS SOCIETY ADAPTS ITSELF TO EVERY CLASS OF INSURERS.

TO the Party desiring additions for the Annual Payment he is willing to devote to the objects of Life Assurance, the Society offers the most favourable terms. Under this Class, a party of the age of 29 will, by the payment of £50 a year, secure for his family, at his death, whenever that may happen,

A PROVISION OF £2,000,

which, if he lives to an advanced age, will have been increased, by additions, to

A PROVISION OF £4,000.

Should the same party require only a definite assurance payable at his death without additions, he will, for £50 a-year, secure a Policy of £2,400.

Or should he be desirous of having the sum

PAYABLE TO HIMSELF

in advanced life, he may, for about £48 a-year, secure £2,000 on his attaining the age of 65 ; but, should he not reach that age, his Annual Premiums will cease, and the £2,000 be paid to his Heirs.

To the Merchant engaged in prosperous business, and who looks to provide handsomely for his family in a few years, this Society secures them against the contingency of death before his expectations have been realised ; and for an Annual Payment of £25 a-year, for the next seven years, will secure £2,000 on the life of a party of the age of 30, should he die before the end of that period.

Or, should the same individual of 30 pay £180 a-year for five years, he will secure his family in £2,000, with the accruing additions thereon, in no probability less than £30 a-year.

And in a similar manner, should a party of the age of 44 have realised a sum, not required in his business, which he is desirous to invest safely for his family, by a

DEPOSIT OF £1,000

with this Society, he will secure to them at his death.

AN ASSURANCE OF £2,000, WITH ADDITIONS,

as has been observed, in no probability less than £30 a-year.

It may be a question whether it might not in such cases as this and the preceding one, be better to withdraw such an investment from his own control ; but should this not be done, and the party require in some few years the Cash he has advanced, he will receive it from the Office in Loan without diminishing his Insurance.

FIRE DEPARTMENT.

THE DIRECTORS solicit attention to this Institution, as *the only native one for FIRE INSURANCE in the West of Scotland*; and they would urge its claims to a preference on account of the very moderate Premiums charged, viz., from 1s. 6d. upwards, according to the nature of the risk.

NO EXPENSE attends transfers from other Offices.

LIFE DEPARTMENT.

The determination of the Directors to effect Insurances on *good lives only*, has enabled them to fix the Premiums on a scale most favourable for the Insured, as exemplified in the Prospectuses of the Company.

These, and any further information will be furnished at the Head Office in Glasgow, or by

ABERDEEN FIRE AND LIFE ASSURANCE AND ANNUITY COMPANY.

Governor—The Right Honourable LORD FORBES.
Chairman—ALEXANDER WEBSTER, Esq., Advocate.

CAPITAL, ONE MILLION.

Head Offices—Union Street, Aberdeen ; Essex Street, Strand, London ; 65, Princes Street, Edinburgh ; 69, St. Vincent Street, and 3, Exchange Place, Glasgow.

THIS long-established Company comprises nearly SEVEN HUNDRED PARTNERS ; and as an index of its success, the Stock has for many years sold at about ONE HUNDRED AND FIFTY PER CENT. above its original cost.

FIRE DEPARTMENT.

Insurances effected at the reduced Premiums of 1s. 6d., 2s. 6d., and 4s. 6d., for the first three classes of Risks. Extra Risks—such as Bleach Works, Flax and Power-Loom Factories ; Corn-Mills, Steam-Boats, and the like, are Insured at increased but moderate rates.

FARMERS

May Insure their Farm Stock, comprehending Corn, Hay, and Crops of every description ; Horses, Cattle, and Farming Implements (which are not chargeable with Duty), for 2s. per Cent. *free of any other Payment.*

LIFE DEPARTMENT.

The following is a specimen of the Table to insure £100 at death :

20	25	30	35	40	45	50
£1 14 7	£1 18 1	£2 2 0	£2 7 3	£2 14 5	£3 4 6	£3 19 8

PARTICIPATION IN PROFITS.

Upon slightly increased Premiums, the Insured have Reversionary additions made to their Policies, while the moderate rates are sufficient to form a bonus during the early years of the Insurance equivalent to the amount declared by some Offices after a considerable lapse of time : thus, a Mutual Insurance Company would require £102 to insure £4000, at the age of 30, while the same premium would *instantly cover nearly £4500 in this Office, and give right to future Bonuses on this sum.* NO ENTRY MONEY.—LOANS made on the Company's Policies.

All Policies opened with this Company before 10th February, 1844, upon the Participation scheme will secure the whole benefit of a full year's standing, at the FIRST PERIODICAL INVESTIGATION.

ANNUITIES GRANTED UPON VERY FAVOURABLE TERMS.

LIFE ASSURANCE.

The great success which has attended this Corporation is to be attributed to the soundness of its Principles, the selection of its Lives, and the Advantages its system offers to the Public ; it combines the principles of MUTUAL ASSURANCE with the security of a subscribed Capital of ONE MILLION Sterling, and the support of a large and influential body of Proprietors, and ranks in point of business the first Proprietary Office in Scotland. The present Accumulated Fund from Life Premiums alone is upwards of £440,000, and the Annual Income is upwards of £90,000, and continues rapidly to increase.

When an Insurance is for the whole term of Life, *One-half of the Premiums only may be paid for the first five years*, the other half may remain unpaid, subject to the payment of interest at five per cent. per annum, to be deducted at death, or paid off, at the option

ADVERTISEMENTS.

of the parties. Tables have been calculated, making the sum insured payable on the party attaining the age of 60, or at death, if it occur sooner. Tables also of Increasing Premiums have been founded on a plan peculiar to this Company, not only suitable to those who find it convenient to pay a smaller Premium during the first few years, but particularly well adapted to securing repayment of Temporary Loans.

The last Bonus (declared December 1844) averaged 40 per cent. on the Premiums paid.

FIRE INSURANCE.

The Premiums are equitably adjusted to the risks. Farming Stock is insured without the average clause. Loss and Damage by Lightning made good. Prospectuses, Tables of Rates, and every information, may be had on application at the Head Office in Edinburgh, or the Agents.

LIFE DEPARTMENT.

The attention of the Public has, in the Advertisements and Proposals of this Company of late years, been called to a Table of Additions applicable to and expectant on Policies of particular dates and ages; the Directors now beg to refer to a Statement (which may be obtained on application at the Office in Cheapside, or to any of the Agents in the Country) of Sums *actually paid*, shewing the Sums respectively assured and the Bonuses thereon.

Persons assured for the whole term of Life in *Great Britain* or *Ireland* respectively, will have an ADDITION made to their Policies every seventh year, or an equivalent REDUCTION in the future payments of Premium, at the option of the Assured.

THE FOURTH SEPTENNIAL VALUATION will be made up to Christmas 1844, and the Directors hope to announce to the Life Policy holders about the end of May, the result of the Actuary's computations. ALL POLICIES EFFECTED DURING THE NEXT SEVEN YEARS, and remaining in force at Christmas 1851, will participate in the valuation to be made up to that date.

ASSURANCES FOR SHORT PERIODS may now be effected in this Office at considerably reduced rates of Premium.

THIS Office is provided with very accurately constructed tables, by which it can ASSURE DISEASED LIVES on EQUITABLE TERMS.

MEMBERS OF CONSUMPTIVE FAMILIES ASSURED at equitable rates.

ADVERTISEMENTS.

INCREASED ANNUITIES GRANTED on UNSOUND LIVES, the amount varying with the particular disease.

HEALTHY LIVES are assured at LOWER RATES than at most other Offices.

Owing to the prevalence of disease more than two-thirds of the population are not assurable in other Offices, and it is ascertained that in several of the leading assurance societies in London 23 per cent. or more than one in five of the applicants, although ostensibly good lives, are rejected on medical examination.

Solicitors being much connected with life assurance have experienced this difficulty to a considerable extent from the delay, and often permanent obstacles occurring in loan and other money transactions on behalf of their clients; the legal profession has consequently freely patronized this Society, as it affords facilities not hitherto available in assurance transactions.

About *three-fourths* of the *policies* already issued by the Society are on *diseased lives*, and a majority of these had been previously rejected by other offices, showing the necessity which existed for an assurance society on the plan in question.

Prospectuses and every other information will be forwarded on application.

TENDERS his best thanks to his numerous Customers and the Public generally, for the very liberal encouragement he has received since commencing business, and begs respectfully to intimate, that he is now receiving weekly supplies of SATIN, STUFF, and BEAVER HATS, from the best Makers in LONDON, LANCASHIRE, and EDINBURGH, which having all the recent improvements and inventions in VENTILATING, FLEXIBILITY, LUSTRE, DURABILITY, &c., makes him feel confident they cannot be surpassed; he therefore earnestly solicits a call from those who have not yet given him a trial, and a continuance from those who have.

J. ANDREW,

PERFUMER AND HAIR-CUTTER,

INTIMATES respectfully, that he has REMOVED his Establishment, from 30, Hamilton Street, to 70, WEST BLACK-HALL STREET, (Mr. Turner's Property,) where, from having more extensive Premises, which have been fitted up in a superior manner, he trusts he will be able to accommodate his employers in a style which will be unsurpassed in Greenock.

A Large Assortment of the Newest TOYS, PERFUMERY, &c., just come to hand.

J. A. has added COLD, HOT and SHOWER BATHS to his Establishment, which may be had on demand.

M. M'LARTY,

HATTER, AND STRAW BONNET MANUFACTURER,

2, HAMILTON STREET,

(OPPOSITE THE TOWN'S HOUSE,)

GRATEFUL for the support hitherto received, respectfully solicits an inspection of his STOCK of HATS, CAPS, STRAW BONNETS, &c., which, he is confident, will be found as Good, as Fashionable, and, to say the very least, as Cheap, as can be found in any large flashy Hat Establishment, Warehouse, or Depot, either in Greenock or Glasgow. His Goods are generally laid in at Cash Prices, and purchased in the best Markets, and he is the more enabled to sell at fair Prices, as his Business is conducted wholly by himself and family, and in the most economical manner. His Straw Bonnets are all made under the immediate inspection of his Daughters, and by some of the best workers formerly employed by MUIRS, CONNELL, & Co.; and he thinks this fact should recommend those Bonnets to a Greenock Public as well as if they were said to have been made in London or Paris; for if an article can be made at home as good and as cheap as a similar article can be made anywhere else, we should prefer and encourage our own manufacture. By doing so, we give employment to *some* one, and the more that are employed the better: we are all dependent upon each other, and none, even the very richest, are beyond this influence.

He continues to manufacture at his Work-shop in Charles Street, Glazed or Varnished FELT HATS, OIL CLOTH COATS, JACKETS, TROUSERS, SOUTHWESTERS. The Superior Quality of his Glazed Hats is already well known to the Trade. His Oil Cloth Coats, &c., are also made on an improved principle. Formerly, it was the general complaint of all who wore such articles that after some time they became very stiff, short in the grain, and tore readily, as if the cloth had been half burned; this is the effect of the chemical action of the oil upon the fibres of the cotton or linen, which are in consequence slowly but surely consumed. This

ADVERTISEMENTS.

he thinks he has counteracted, and the Goods coated with his improved Composition, instead of becoming stiff by wear, become soft and pliable, and therefore more desirable and agreeable to the wearer.

All kinds of Coats, Jackets, Trousers, Southwesters, &c. oiled for those who make them up for themselves.

THE TRADE SUPPLIED.

Shipping orders executed.

The above contains only a plain statement of facts; had the Advertiser been disposed to deceive or gull the public, he would have adopted the inflated bombastic puffing style. He could have assured them he had made arrangements with some of the best London and Lancashire Patent Hat Manufacturers for a regular weekly supply; that his Stock at present consisted of a very large, varied, and excellent assortment, which he could recommend with the greatest confidence for elegance of Shape, shortness and richness of Nap, brilliancy of Colour, and fastness of Dye.

His Patent Flexible SATIN HATS are uncommonly soft and agreeable to the head, beautifully Rich, and from their Lightness, and extreme Flexibility, surpass every other description of Hat for Summer wear.

Of London BEAVER HATS, a splendid variety, warranted not to lose their lustre, nor stain with salt water. Gossamer Beaver Hats, Patent Ventilating Satin Hats, which keep the head agreeably cool, French Satin Hats, Velvet Napped Hats, Paris Satin Hats, Shooting Hats, Storm Hats, &c. &c.; also, the unrivalled Patent INDESTRUCTIBLE HATS, warranted *not* to lose the Nap by wear, nor to lose the Colour, nor change the Shape by exposure to the weather.

TO PROPRIETORS, ARCHITECTS, AND BUILDERS.

JOHN HENDERY,

MEASURER,

(From Glasgow,)

BEGS to intimate to his Friends and the Public of Greenock, and neighbouring Towns, that he measures PLANS and ARTIFICERS' WORK, of all descriptions connected with BUILDINGS; also Ship Cabin Work, &c. &c.

From his experience and practical knowledge, J. H. is led to hope that the facility thus afforded in preparing Schedules for new Buildings, &c., will be brought more generally into practice; and assures his employers, that no exertions will be spared to merit a continuance of that patronage which he has hitherto enjoyed, or with which he may yet be honoured.

THE GREENOCK OBSERVER,

AND

GLYDE SHIPPING GAZETTE.

PUBLISHED EVERY THURSDAY MORNING.

OFFICE,--FORREST'S BUILDINGS, 1, WILLIAM STREET.

THE OBSERVER was established in 1840 to supply a very general and strongly felt *desideratum* of an independent Journal in Greenock which would fairly represent the principles of all parties in the Church and in the State, and fearlessly maintain those enlightened views of political and commercial polity cherished by the great body of the people of this country, and honestly advocate the claims of that numerous and respectable body of our fellow citizens who are conscientiously opposed to the compulsory interference of the civil magistrate with the support of religion.

Having considerably adopted and steadily pursued the course thus indicated, the OBSERVER has secured to itself the confidence and support of a large circle of friends, and may now be said to be fairly and firmly established as a permanent local Journal, with a respectable circulation and influence.

Struggling in the defence of the great principles of civil and religious freedom, the OBSERVER has not been indifferent to the claims of the Free Protestant Church of Scotland, whose praise is now in all the Churches, and admiring its bold assertion of great scriptural principles, its steady adherence to these in the midst of strong temptations, and the sacrifices it has made in the maintenance of them, and in the diffusion of evangelical religion in our land, this Journal has freely lent its aid in recording the general operations and local proceedings of the Free Church.

When Puseyism and Popery are making such giant strides on every hand, and now, supported by the government of our country,

ADVERTISEMENTS

threaten to undermine and jeopardize those great Protestant rights and privileges for which our forefathers bled and died ; and when the spirit of the martyrs, and the signs of the times, call for combined exertion on the part of all the evangelical churches in our land to avert the danger, the OBSERVER has and ever will be ready to aid those efforts, and especially to do what it can to promote the great objects contemplated by the Protestant Union, now so happily effected between the Free and the Dissenting Churches in our town.

The OBSERVER underwent a considerable enlargement in February 1843,—is one of the largest weekly newspapers in Scotland,—and is greatly the larger of the two at present published in Greenock. From its ample space, therefore, considerable scope is afforded for PARLIAMENTARY INTELLIGENCE, FOREIGN, DOMESTIC and LOCAL NEWS, Reports of Meetings, &c., which are carefully attended to, The SHIPPING INTELLIGENCE also, which is of such importance to a community like that of Greenock, is always extensive, and selected with care.

The OBSERVER being very generally read by all classes in Greenock and adjoining places, and having a very respectable circulation in all the towns and villages on the Clyde, besides in others throughout the kingdom, its columns afford a very desirable medium for general advertising.

The Proprietors gratefully acknowledge the greatly increased patronage bestowed on the OBSERVER of late, and take this opportunity of assuring their Friends and the Public that no exertions nor expense shall be spared to entitle this Journal to their confidence and support.

BELL ENTRY.

HUGH BLAIR,

WINE AND SPIRIT DEALER,

(Successor to John Farquhar, Jun., Esq.,)

IN returning thanks to his Friends and Customers for the very flattering encouragement he has received since Opening these Premises on his own account, most respectfully intimates that he continues to have regular supplies of the best LONDON PORTER in Bottles, best EDINBURGH and ALLOA ALES, of the same quality for which Mr. FARQUHAR has been so highly famed during nearly the last 40 years. H. B. has had the sole management of the Business for the last eight years, and from his experience in all the various Departments of the Trade, he can with confidence recommend the various liquors as in nowise inferior to those so long kept by Mr. Farquhar, and which Mr. F. was so highly and deservedly famed for selling.

THE COMMERCIAL LIFE INSURANCE COMPANY OF SCOTLAND.

CAPITAL, £500,000.

OFFICES, 40, GEORGE SQUARE, GLASGOW;
9, YORK PLACE, EDINBURGH.

William Hunter, Esq., *Manager*—John Tennent, Esq., *Secretary*.
William Mackenzie, M.D., *Medical Adviser*.
Messrs. Campbell and Tennents, *Law Agents*.

THE Tables upon which this Company acts were prepared for the Comdany by the learned professor of mathematics in London University, whose eminence as an actuary is universally acknowledged. They will be found to embrace all the varied schemes upon which respectable offices transact business, at rates as moderate as is consistent with safety both to the assurer and assured.

Without entering upon the much agitated question of the comparative merits of Mutual and Proprietary Insurance offices, it may briefly be stated, that the Commercial Life Insurance Company offers to parties effecting Insurances upon the principle of participation in the profits of the Company, advantages quite as great as can safely be promised by any other institution, whether proprietary or mutual. In this class *five-sixths* of the ascertained profits are added every *fifth* year to the amount in each policy, in proportion to the sum insured, and to the number of yearly premiums which have been paid.

To those parties, again, whose only object it is to secure a determinate sum at the lowest possible rate, the non-participation Tables of this Office will be found to present unusual facilities. When the Insurance is for life, one half of the premiums in this class may remain on credit, on interest thereon at five per cent. being paid in advance. This scheme must strongly recommend itself to parties effecting Insurances for the purpose of obtaining temporary accommodation.

Loans are made by the Company either by way of redeemable annuity, or on the deposit of policies with collateral security.

Among other branches of business transacted by the Company are :—

Insurances, payable on the party reaching any given age, or at death, should it occur before that age.

Insurances for Short Periods.

Insurances on Joint Lives and Survivorships.

Annuities, present or deferred, to Widows or other Relatives.

Endowments to Children, and Purchases of Reversionary Interests.

No admission or entrance fees are required in any case, nor is any charge made beyond the stamp duty payable to Government.

Forms of proposals, detailed Tables of Rates for every class of business, and all necessary information, may be obtained on application at either of the Company's offices, or from any of the Company's agents.

WILLIAM HUNTER, *Manager*.

LIFE DEPARTMENT.

LIFE INSURANCE is an object of the first importance to every class of society, yet many persons are entirely unacquainted with its peculiar advantages, or with the extent and universality of its application to the concerns of life. The following are a few only of the most obvious cases in which it may be resorted to:—*First*, By persons, whose Incomes are dependent upon life, or upon professional or public employments, as those in the Army, the Navy, the Church, the Law, or in Government or Public Offices, who, by appropriating a small portion of their yearly income may secure an adequate and certain provision to their Wives, Families, or Dependents, or create a Fund disposable by Will.—*Second*, A Fund for a Marriage Settlement may thus be secured by those who are not possessed of independent property.—*Third*, Capital invested in Annuities, or in Securities upon Life Interests, may be rendered permanent by insuring the lives of the parties on which their continuance or existence depends.—*Fourth*, Creditors may secure Debts by insuring the life of the Debtor; and Debtors, and Persons mortgaging their Estates, or whose Estates are charged with Legacies or other payments, may, by an annual payment, make Provision for liquidating their Debts, and releasing their property from such incumbrances, by which their Estates will descend free to their families.—*Fifth*, To Parents, educating and putting out their Children to expensive Professions or Trades, or otherwise making advancement for them; and Persons whose Incomes depend upon the Lives of their Employers, Life Insurance secures, in the event of death, a repayment of the one, and a certain continuation of the other.—*Sixth*, To the Owners of Lands on Leases for Lives, the above mode of Insurance is peculiarly important, as it affords the means of securing the payment of the sums necessary for the perpetual renewal of such Leases, and thereby rendering the Estate nearly as valuable as Freehold; and generally it affords the means of certain indemnity against any pecuniary Loss, Claim, or Inconvenience whatsoever, to which one individual may become subject by reason of the death of another; and is applicable to all classes of the community, giving to each the opportunity of securing to their Families and Dependents a source of independence and enjoyment.

Advantages offered by this Company upon Life Insurances.

1. A reduced scale of Premiums, and no liability of Partnership.
2. A PARTICIPATION IN THE DISPOSABLE SURPLUS PREMIUMS ON POLICIES for £100 and upwards, to be ascertained at the end of every fifth year from Christmas, 1827, which may be applied either in reduction of the original Premium, or be added to the Sum assured as a Bonus, and payable therewith.
3. Naval and Military Officers are charged only the same Premiums as other persons, except when called into actual service, and are entitled to the same advantages.
4. Payment of Claims in Three Months after the usual proofs.
5. No Entrance Money or Admission Fees are required, and no Charge is made for Policies except the Stamp Duty thereon.
6. Permission to pass, in Steam-Boats or Decked Vessels, from British to Foreign Ports, between the Texel and Brest, both inclusive.
